

The Cheshire Network

A number of Cheshire Athletic Clubs have submitted a funding bid to establish a 'network' in Cheshire.

This an exciting venture that will benefit the participating clubs by promoting communication and the sharing of ideas and experience through funded initiatives in specific areas. The network will be improved by including as many Cheshire clubs as we can.

Summary notes of the post-submission meetings are available. The first includes a very brief description of the principal components of the bid and plans for the next steps by the Cheshire Network Action Group.

If your club is interested in joining us and wishes to find out more, please contact me, the volunteer Network Coordinator, Andy Garnett (Spectrum Striders, Club President) Alternatively, you could contact Sarah Friday, (England Athletic - North, Club and Coach Support Officer) for general information about McCain sponsored networks.
